🔗 Hariharan S

Summary

Motivated B.E. Computer Science student (2023–2027) at Anna University with hands-on experience building responsive web applications and full-stack projects using the MERN stack. Proficient in HTML, CSS, Bootstrap, JavaScript, React.js, and MongoDB. Independently designed and deployed five web projects ranging from static websites to API-integrated applications. Strong problem-solving skills with a passion for clean, user-friendly interfaces and scalable solutions.

Education

B.E. Computer Science Engineering, Anna University

2023 – 2027

Schooling, Govt. Boys Higher Secondary School

2023

Skills

Front-End

HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, AOS Animation.

Back-End / Database

Node.js, Express.js, MongoDB

Libraries & APIs

Axios, npm packages, REST APIs

Tools & Platforms

Git, GitHub, VS Code

Projects

Scaffold

- Designed a multi-page nature awareness website with structured content and visual layouts.
- Implemented semantic HTML and CSS, AOS Animation styling for an accessible, visually appealing interface. Configured the project for public web hosting to enable online access.
- **URL-Scaffold**

Calculator - Web-Based Calculator App

- Built a fully functional browser-based calculator supporting arithmetic operations using JavaScript.
- Designed a clean, responsive UI with CSS ensuring smooth user interaction across all devices.
- Deployed the project online for public access and demonstration.
- **URL-Calculator**

Dictionary App - React.js Web Application

- Developed a dictionary web app using React.js that fetches real-time word definitions via a public REST API.
- Integrated Axios for efficient HTTP requests and handled API responses with dynamic React state management.
- Demonstrated practical knowledge of React component architecture, hooks, and third-party API integration.
- **URL - Dictionary**
